

LIBRA EDUCATION

TUITION

Libra Education is the foremost provider of tuition in the UK, helping hundreds of students each year. We put our students at the heart of everything that we do and work closely with our trusted tutors to deliver breakthrough moments for all of our students.

Our service is built on three pillars: expert advice on the British education sector; comprehensive planning for individual needs; and most importantly, the need for great educators. We work with Oxbridge graduates and qualified teachers to deliver the inspirational lessons that students need.

Expert Advice

Our students are paired with a consultant who tracks their progress weekly to ensure that their goals are met. With a wealth of teaching experience, we create bespoke learning plans to further students' progress, train tutors in continuous professional development, and keep abreast of current educational research.

Comprehensive Service

We coordinate with schools, tutors and guardians to maintain and deliver on common goals set out in our Academic Plans. This comprehensive support of our students' present and future needs ensures every eventuality in their academic career is provided for.

Excellent Tutors

We only work with tutors who meet our high expectations for delivering outstanding progress. All of our tutors are exceptional educators from world class institutions with years of experience.

Preparation with a Purpose

We know that students have limited time and lots to achieve. We use tutorials to maximum effect so that our students learn quickly and efficiently. To achieve this, we provide our tutors with up-to-date resources and an Academic Plan to follow for each student.

Oscar Hardy

All student journeys are overseen by Eton Scholar and Cambridge graduate Oscar Hardy. Since 2011 his personal experience has allowed him to help students to develop and grow into successful young people.

TUITION JOURNEY

Following three simple steps,
we set students up for success
from the first tutorial.

1 Assessment

Before tuition starts, all students are assessed by one of our specialist consultants. From that first assessment we set attainable goals to stretch and challenge the students.

2 Match-making

We pair each student with the best possible educator who can develop their knowledge in an engaging way. We connect students with an extraordinary tutor within a matter of days.

3 Planning and tracking

With regular assessments from our tutors and expert support from our consultants, we map the likely trajectory of the student. Students are guaranteed to build their confidence and improve their grades.

THE OXBRIDGE TUTORIAL STYLE

All sessions follow the Oxbridge tutorial style.

Our students are provided with knowledge, learning materials and coaching before our tutors challenge them to explain and justify their answers. After each lesson, we set homework so students are able to practise what they have learnt. We find this to be an extremely effective approach across all subjects and abilities.

Confidence is the key to success in both studies and exams. During tutorials, our tutors will judge the correct level of the student so they enjoy their studies and make swift progress.

Subject list

Accounting	French
Architecture	Geography
Art	Geology
Biology	German
Business	History
Computing	Land Ec
Chemistry	Law
Drama	Maths
Economics	Medicine
Engineering	Music
English	Philosophy
	And more...

OUR EDUCATORS

We deliver high-quality tutorials by working with our professional and experienced tutors.

Sarah – English Teacher

A graduate of the University of Oxford, Sarah is an outstanding, results-orientated teacher trained under the acclaimed Teach First Leadership Development Programme. Sarah supports students to achieve their aspirations through a deep love of learning, ensuring children not only access the curriculum objectives but become inspired learners with a real thirst for knowledge.

Matthew – Maths Teacher

A graduate of the University of Cambridge, Matthew is a fully qualified Maths teacher. He has a detailed knowledge of the requirements of the National Curriculum for Mathematics, having taught all secondary year groups from 7 to 13. Matthew is an enthusiastic tutor who is keen to pass on his passion for Maths to his students.

Jamie – Philosophy Teacher

A graduate from the University of Cambridge, with a bachelors in Philosophy and a First-Class Masters in Education, Jamie has worked as a fully qualified teacher for the past 5 years. He has a broad knowledge and understanding of English texts and an excellent understanding of learning styles. Jamie adapts each tutorial to ensure students retain information well. His personable style makes him an excellent mentor for many students.

SUCCESS STORIES

**Personalised
application
plans deliver
first class results.**

Tom

Tom was working at a C and needed to achieve an A in his Maths A-Level to secure his university place. Working with one of our tutors, we set out an Academic Plan for him to target only those specific areas in which he struggled. In only three months, we helped Tom to achieve the A grade that he required.

Claire

Like many international students, Claire was strong across the sciences but struggled with GCSE biology due to the technical language. By building her familiarity with the terminology and through repetition, using past paper questions, Claire achieved her best GCSE result in Biology and went on to study it at university.

All students are eligible for a free assessment. Contact us today to find out how we can transform a student's academic ability.
